

Think Different,
feel a
difference

Our Strength

Team Work

KMU with current 20 employees

Manufacturing

Specialized in prototypes
and small(est) series (1-
100 pieces)

Challenges

Mastering
challenges is our
strength

Service

Contract
manufacturing

Experience

For almost 40 years in Sevelen

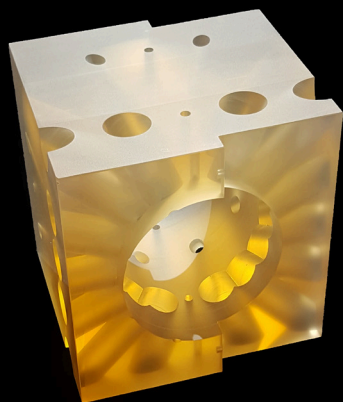

Turnover

Turnover approx. 3 Mio

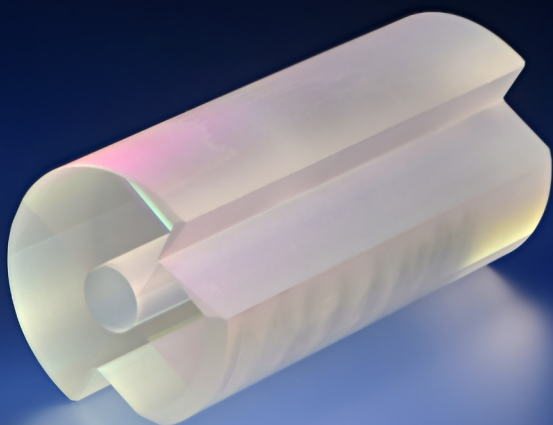

Find the trusted optical solution with OPTICO AG

Our Services

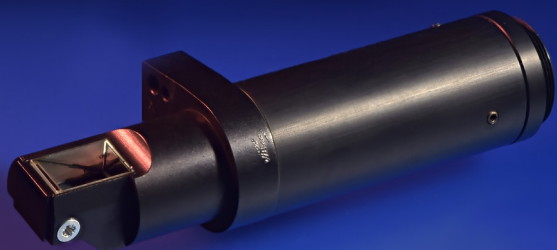

01 Project & Development

Supporting innovators from first idea to global impact. We support innovators throughout their entire journey. Bringing brilliant minds together to provide lean & hands-on services.

02 Manufacturing

We accompany our customers from prototype to small series. Trust in our flexible and high-quality processing. With the know-how of our employees we manufacture your special product

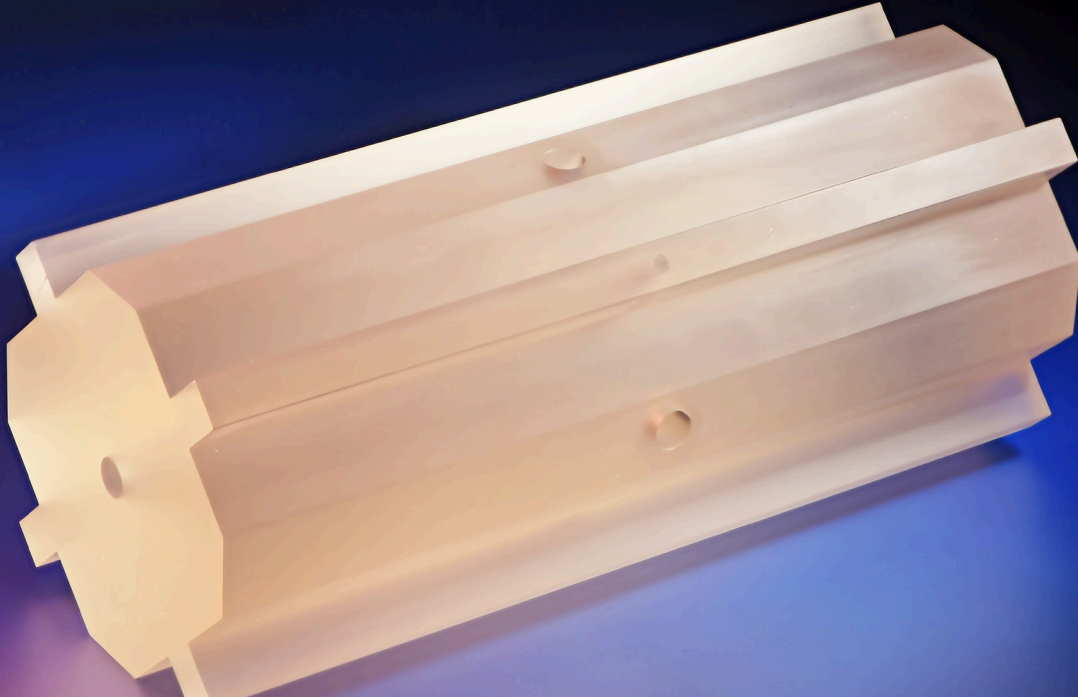

03 Assembling

We assemble optical and mechanical components into modules and systems according to your requirements. Together with our customers we develop the best possible system performance

Plan Optics

Specifications

Materials	Optic glass, quartz glass, ceramics, filter glass, special materials
Dimension	10 to 500mm
Center thickness	+/- 5 μm
Diameter	+/- 5 μm
Parallelism	0.5 arcsec
Angular error	1.0 arcsec
Surface figure	1/10 PVr @632.8nm according to ISO 10110
Surface error	1x0.063 according to ISO 10110

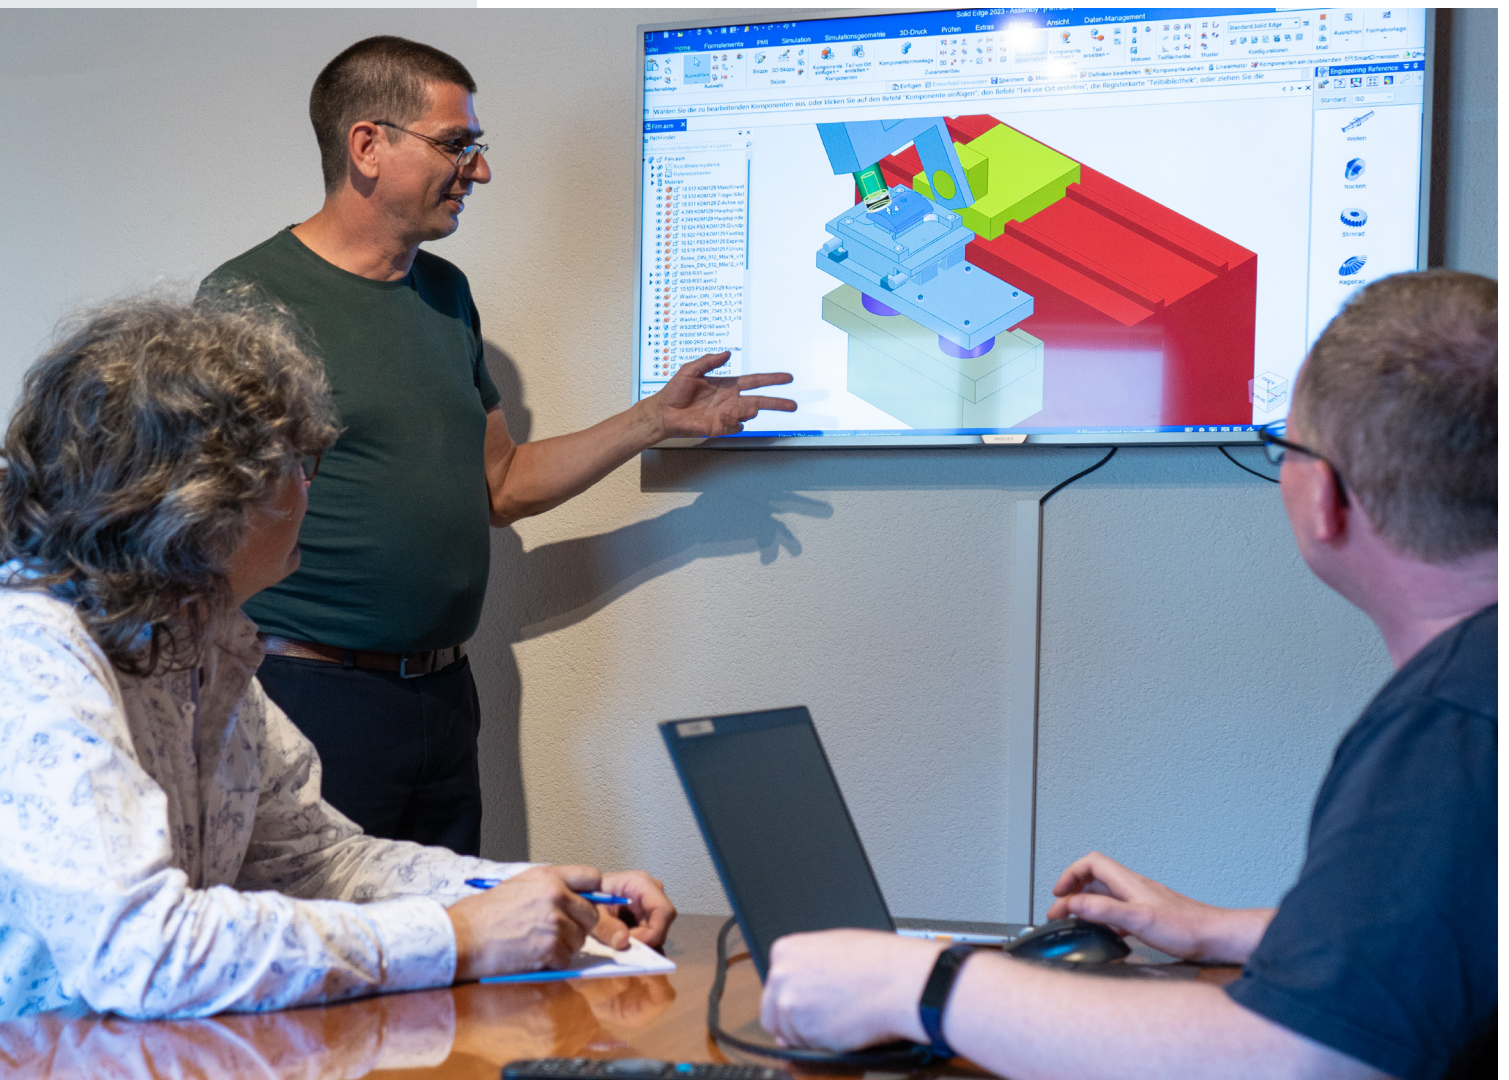

Spherical Optics

Specifications

Materials	Optic glass, quartz glass, ceramics, filter glass, special materials
Dimension	Ø 10 to 450mm
Center thickness	+/- 5 µm
Diameter	+/- 5 µm
Radii	5mm to ∞
Surface figure	1/10 PVr @632.8nm according to ISO 10110
Surface error	1x0.063 according to ISO 10110
Shape	free form, off axis

Our Goal

We accompany our customers from prototype to small series.

Trust in our flexible and high-quality processing.

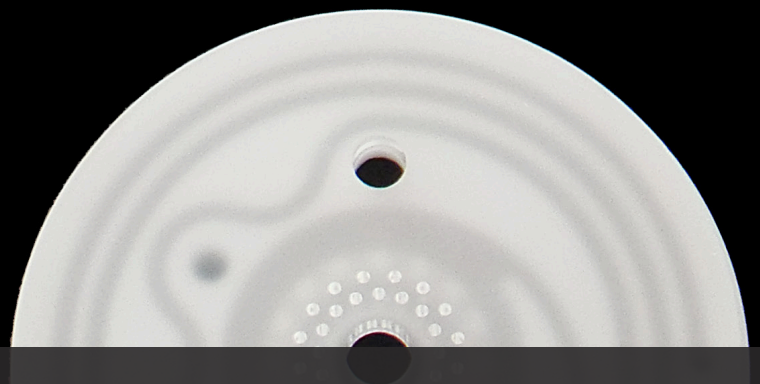

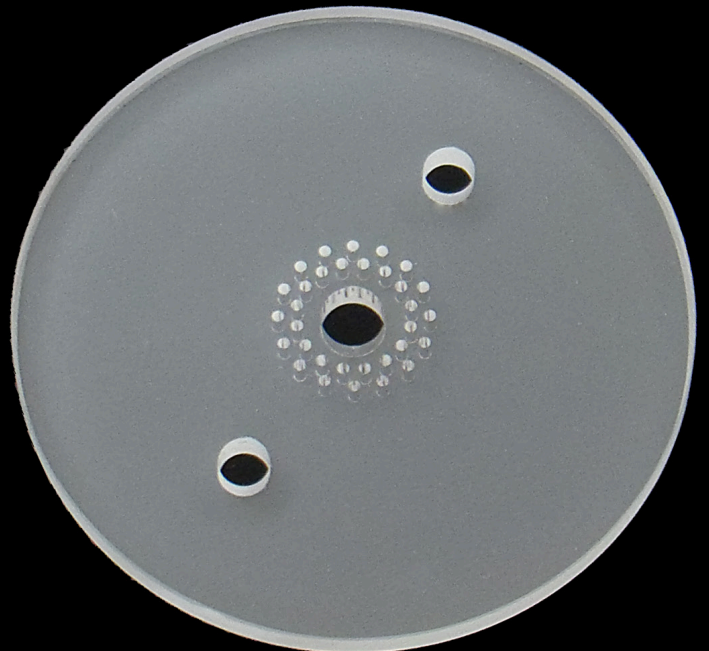

With the know-how of our employees we manufacture your special product

About Us

At OPTICO AG, we pride ourselves on a long history of excellence. Since 1987 we have been committed to providing the best products and highest level of customer service possible.

Our complete in-house optical design and component fabrication capabilities include cutting, shaping, edging, grinding, and polishing a wide variety of standard and exotic materials. Additionally assembly, optical, mechanical and metrology expertise that ensures your final product is easy to manufacture in a reliable manner with on time delivery.

Our solutions encompass manufacturing of prototypes and production volumes.

**For OPTICO every
single step matters**

“Let’s make a difference”

Your Business Is Our Business, And Your Success Is Our Motivation
